

Quality and Environmental Policy Statement

We are dedicated to providing a value for money service to all our customers, placing particular emphasis on the experience, expertise, capability and professionalism both of our personnel and of our service.

The quality management system of Warden Plastics Ltd. is designed and structured to ensure that all requirements for quality and environment are recognised and uniform control maintained.

We are committed to the continual improvement of the quality management system, which has been designed to meet the requirements of ISO 9001: 2015 and ISO 14001: 2015.

We set and monitor quality and environmental objectives with the aim to improve our products and services and monitor and reduce our environmental footprint.

Warden's management system ensures compliance with customer, statutory, environmental and regulatory requirements and we are committed to the protection of the environment, including prevention of pollution.

It is essential that company policies and procedures are consistently followed and are subject to regular reviews and improvements using customer and process feedback information and audit findings.
